Medical and Surgical

INSTITUTE.

* *CONSULTATION, IN ALL CASES, FREE*
* *CURES GUARANTEED, OR NO PAY REQUIRED*
* *IN ALL CASES WHERE CONFIDENCE IS REQUIRED THE UTMOST SECRESY MAINTAINED.*

The above rules, established by Dr. J. C. Young in 1850, and which have done so much to secure the reputation of this Institute, are still adhered to, affording those in need of medical aid, the certainty of cure and the utmost confidence. There is nothing of so great importance to the sick as to know where to find a physician whose skill and humanity are assurance of proper and delicate treatment. The Doctor would respectfully call the attention of those of both sexes who are suffering or in trouble to the invariable success that has marked the career of the Institute in the seventeen years of its existence.

It is unnecessary in this connection to enumerate all the complaints treated at the Institute, but the Doctor feels it his duty to call especial attention to that terrible scourge, SEMINAL WEAKNESS, that is sapping with its insidiousness the very life of its victims; in the treatment and cure of which the Institute has attained so enviable a reputation.

Oregon Matters in Congress

[From the Congressional Globe July 2d]

Mr CORBETT. I desire to call up the amendment that I offered yesterday. It is to insert on page 11, after line two hundred and forty two the following:

For construction of a building to be used as a custom house and United States court room and post office, at Portland Oregon $50 000.

I desire to have a letter from the Secretary of the Treasury addressed *to the chairman of the* Committee on Commerce read.

The Chief Clerk read as follows:

TREASURY DEPARTMENT July 1 1868

Sir—In reply to your inquiry as to the necessity of a building for the use of the custom house, post office, United States courts and internal revenue officers at Portland Oregon I have the honor to say that the commerce of Portland is rapidly increasing—the custom receipts alone for the past year being upward of fifty thousand dollars in gold.

There is great difficulty on that coast in renting safe buildings for Government purposes and as the papers and documents connected with the customs and other offices, such as registers of resale internal revenue cases, &c., are extremely valuable, the interests of the public service demand that provision should be made for their preservation in a fire proof building.

The necessity for buildings of this character is even greater in that locality than on the Atlantic coast as on the coast secure and suitable structures can be rented for the purposes mentioned while in Oregon none can be obtained unless erected by the Government.

In view of these circumstances therefore, and of the saving that will be affected in the rent now being paid for the insecure and unsuitable buildings at present occupied by the various *offices* I recommend the erection at Portland of a substantial fire proof building of sufficient capacity to accommodate all the civil officers at that port believing that such a course will promote both the interests of the *Government and of the city.* I know of no city on the Pacific where the necessity for a building of this character is more pressing.

A suitable building cannot, it is believed by the supervising architect, be erected for less than $100 000 *in gold, but an appropriation of* $50 000 would be ample at present.

Very respectfully, H McCULLOCH
Secretary of the Treasury

Hon Z CHANDLER, Chairman Committee on Commerce, United States Senate

Mr CORBETT. I will state that it is the intention to erect a building containing room sufficient to accommodate the internal revenue officers at this point. The collector and assessor of the State reside at Portland and have their offices there. I have another letter here from the Postmaster General, in which he states that it is a matter of very great importance that means should be taken at an early day to furnish a post office adequate to the requirements of the city of Portland and the country to be supplied from it. I also left the papers at the office of the Secretary of the Interior, but Judge Otto, the Assistant Secretary was obliged to come to the House on some important business, and he stated to the chairman of the committee on Appropriations that he considered it not only important but absolutely necessary that a court room should be built at this place.

Mr WILLIAMS. I hope that this amendment will be adopted. I have made frequent representations to the Departments of the necessity of such a building at Portland, in Oregon and it has been generally understood that at some convenient time they would recommend an appropriation of this kind, but now the necessity has become so obvious that there seems to be no question anywhere with any Department that the construction *of this building is* necessary and proper. I will simply add that we have no public buildings in the State of Oregon, not one building of any kind or description that has ever been erected at the expense of the Government. In the city of Portland, where the United States District Court is held, the business for that court is rapidly accumulating. The accommodations for the court at this time are exceedingly limited and it is absolutely necessary for the United States, if possible to hire another court room at considerable additional expense, or to construct a building for the purpose of accommodating the court. When you consider the expense that the United States incurs in hiring a post office, a court room, and hiring the other public buildings that the United States are compelled to hire there, it will be seen that as a matter of economy it will be to the advantage of the Government to construct this building, for the expenses now paid amount to more than the interest on the money that the Government would so expend. I hope, therefore, that his amendment will be adopted as I am satisfied it meets the approval of all the Departments.

Mr MORRILL, of Maine. I suggest a verbal amendment simply in the form of the amendment. It is to insert the word "public" before the word "building," and also to strike out the words "to be used," so that it will be "a public building for a custom house, United States court room, and post office."

Mr CORBETT. I accept that modification.

Mr MORRILL, of Maine. I do not see that there is any reasonable objection to this proposition upon the evidence.

The amendment, as modified, was agreed to.

Mr STEWART. On page 13 at the end of line four hundred and eleven I move to insert the words "under the direction of the Commissioner of the General Land Office," to make the clause correspond with the others.

Mr POMEROY. The effect of that is to require that the surveying of the eastern boundary of Nevada shall be prosecuted under the direction of the Commissioner of the General Land Office. I think that is very proper.

The amendment was agreed to.

Mr POMEROY. I move to amend the bill on the seventeenth page, line three hundred and eighty eight by increasing the appropriation for surveys in Oregon from $25 000 to $40 000. Forty thousand dollars was the estimate but the House of Representatives allowed only $25 000 *for surveying in the State of Oregon.* The matter was before the Committee on Public Lands and representations from that State were made of such a pressing character that the Committee on Public Lands thought we ought to come *up fully to what was estimated for.* We found in reference to most of the new States that the immigration and the demands for settlement upon the public lands require surveys. The increased impetus that has been given to settlements upon *the public lands requires* that they should be surveyed. Anybody who has had any experience knows the inconvenience of settlers going in advance of the surveys. They have conflicting claims, conflicting boundaries conflicting titles. *It retards the growth* and prosperity of a State not to have it surveyed. The Senators from Oregon and all the persons I have seen from the Pacific coast think we should come up fully to the recommendation of the Land Office. This amendment is reported by the Committee on Public Lands and was printed and referred to the Committee on Appropriations a few days ago.

Mr MORRILL of Maine. I will say to the Senator that the appropriation in the bill is in conformity with the estimates of the Department.

Mr WILLIAMS. I have a letter from the Commissioner recommending this amendment.

Mr MORRILL, of Maine. Let that be read.

Mr WILLIAMS. I wish to *subjoin* a statement to what has already been said by the Senator from Kansas, as to the necessity of this addition to the appropriation. Heretofore the appropriations for the State of Oregon have been rather limited in view of the extent *of country* to be surveyed, and there is a large proportion of the habitable part of that State now occupied by people that has not been surveyed and the want of the necessary surveys is an obstruction to the settlement *of the State.* I can name several valleys of considerable extent, there valleys of fertile land upon which persons have settled and upon which others are desirous to settle that have not been surveyed such as the valley of John Days river, the upper *Des Chutes* valley, the Malheur valley, the Jordan Creek valley, Wild horse Creek valley, Goose Lake valley, Lost River valley and other valleys of that description have not been surveyed. There is a necessity that they should be surveyed without any considerable delay, so as to enable the people upon the lands there to enter them and obtain a title for their property. I need not say to anybody who has any experience in these new States that it tends greatly to retard their improvement to limit the amount of surveys and there is no real economy in such a course and it rather has the contrary effect.

Since the [estimate] was made by the Commissioner of the General Land Office he has written a letter which I will read:

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE, Feb [illegible] 1868.

Sir: I have the honor to acknowledge the receipt of your communication of the 4th instant upon the subject of an increase in the estimate of appropriation submitted to Congress by this office for surveying the public lands in Oregon for the next fiscal year.

In reply I have to say that at the time the estimates were made this office had in view the exigencies of the surveying service and counteracting influences exerted by the then disturbed condition of the country on account of Indian hostilities.

The estimate now before Congress for the survey of the public lands in Oregon is $5 000 in excess of the appropriation made for the current fiscal year. Had it not been for the reported *dangers in Oregon to surveying parties* in places remote from the immediate vicinity of military establishments in Klamath Lake and Surprise valley much larger estimates would have been presented for the extension of the lines of public surveys demanded by the *provisions* of an act granting lands to the State of Oregon for the construction of a military road from Eugene City to the eastern boundary of Oregon.

In the presence of the foregoing impediments to the progress of the public surveys and a due regard to the hazardous national resources, the estimate of the Surveyor General of Oregon amounting to $55,450 was restricted to the sum of $25 000.

Representations have since been made to this office of a more pacific attitude of Oregon Indians in the region of country demanding early surveys on a larger scale than estimated. I would be willing to recommend to Congress $40 000 appropriation instead of $25 000 for the fiscal year ending June 30 1869.

I have the honor to be
Very respectfully &c.,
JOSEPH S WILSON Commissioner

Hon RUFUS MALLORY

Upon the representations that were made to him inducing him to believe that there Indian hostilities were not such as they had been represented to him to be he makes the recommendation of an additional appropriation of $15,000.

Besides the other reasons for adding to this amount I may mention that there is a large tract of land granted for a military road, upon which a vast amount of work and money has been expended, from the Willamette valley to the eastern part of the State across the Cascade mountains, and it is impossible for the company, notwithstanding they have invested their money, to make use of the lands donated to them, because there are no surveys and there is no money to expend in surveying the lands along the line of that road, and thus the lands are kept out of market. The company cannot sell them because there are *no surveys.* I think in view of the extent of the State of Oregon and the limited appropriations that have heretofore been made for that State and the prospect that the immigration will rapidly increase, that this is not an extravagant appropriation. Some of the States have $50,000, Nebraska has $50 000.

Mr POMEROY. Forty thousand dollars.

Mr WILLIAMS. Well, $40,000. California has $50 000. Any one who will look upon the map showing the public surveys in the country, will see that a very large proportion of California has already been surveyed, while but a very inconsiderable proportion of the State of Oregon has never yet been touched by the public surveys. I hope, therefore, that this amendment will be adopted.

The amendment was agreed to.

McPHERSON ON GRANT AND SHERMAN.—The gallant General McPherson, who fell mortally wounded near Atlanta, Georgia, was for a time a member of Grant's military family, and served through the memorable Vicksburg campaign as commander of the Seventeenth Army Corps, has left the following record written but a short time before his untimely death, of his opinion of Grant and Sherman:

General U S Grant I regard as one of the most remarkable men of our country. Without aspiring to be a genius, or possessing those characteristics which impress one forcibly at first sight, his sterling good sense, calm judgment and persistency of purpose more than compensate for those dashing brilliant qualities which are apt to captivate at a first glance. To know and appreciate General Grant fully one ought to be a member of his military family. Though possessing a remarkable reticence as far as military operations are concerned he is frank and affable, converses well and has a peculiarly retentive memory. When not oppressed with the cares of his position he is very fond of talking, telling anecdotes, etc. His purity of character is unimpeachable and his patriotism of the most exalted kind. He is generous to a fault, humane and true, and a steadfast friend to those whom he deems worthy of his confidence, he can be relied upon in case of emergency. General W T Sherman is what might be called a brilliant man possessing a broad and comprehensive intellect. A rapid thinker and a ready writer fertile in his resources and untiring in his exertions, he possesses those characteristics which forcibly impress you at first sight. He has mingled largely with the world and has tried various professions, has read and reflected much, and having a remarkably retentive memory, is well informed on most subjects which come within the scope of human thought. He is of much more excitable temperament than General Grant and more apt to be swayed by impulses, though his judgment is not so cool and reliable. In other words though a more brilliant man, he does not possess that sterling good common sense which pre eminently distinguishes General Grant. He is however, a most brave and generous man, thoroughly in earnest, and ready to sacrifice everything for the good of his country. He is a true friend and thoroughly unselfish and there are no better men—or few at least—than General Sherman.

ANXIOUS ABOUT HER.—The *Territorial Enterprise* of July 11th says:

Night before last at Piper's Opera House the play of Lucrezia Borgia was performed. Mrs B wers appearing as Lucrezia—a part she rendered with consummate skill and terrific vim. A countryman who occupied a seat immediately behind us and watched the great actress with an interest that appeared to absorb his every sense—he saw nothing but the Borgia. At the end of the act he heaved a great sigh and gazed at the green curtain. Turning to his neighbor he asked: "Does Mrs Bowers enjoy good health do you know?" "I believe so, why?" queried the neighbor. "Well I don't know, but it somehow struck me that a woman that is obliged to have so many d—d bad spells—and has em so natural—couldn't be exactly right you know between whiles."

SENSATIONAL.—The *Dramatic Chronicle* indulges itself once in a while with sensational items. The annexed was found in a late issue of that paper:

FOR SALE.—A gentleman intending suicide wishes to dispose of his body to any medical institution for the purposes of dissection. Desiring to benefit humanity will sell cheap. If necessary will sell his flesh without bones. He will make a fine skeleton, having never had anything about him in his life broken except his purse. Apply early as the soon to be corpse won't keep.

GHASTLY SPECTACLE.—The *North China News* says: For six days past numbers of dead human beings, men women and children have floated past this settlement down the river without any clothes on. We hear that the soldiers and people in several places up the river have been fighting and that the bodies belong to some of the combatants and their families. It is a horrible sight and enough to make all forswear for the next few months. The dogs are to be seen in several places between here and Tahoo lying by the side of the bodies gorged.

The Japanese Dickens, Cloyte Bakin by name, has written one story in 106 volumes which was thirty-eight years in going through the press. A serial and no mistake!

Governor Seymour's Bid for the Presidency

[From the New York Tribune June 27]

Governor Seymour is a cool wily, ingenious master of the art of squirting oratoric vitriol upon those who do not wear his uniform. His speech last night illustrates to good advantage his talent for misrepresenting facts, hedging against the consequences of his own [wea]pons and finding fault with everybody's policy without becoming responsible for any [pol]icy. His argument aims at the single point that all the evils of the financial condition of the country are caused by the expense of reconstructing the South on the basis of universal suffrage. Though from the beginning to the end of his speech, he is too wary to propose any other plan of reconstruction, yet he evidently wishes those who are in favor of destroying the State governments of the South, depriving the colored race of suffrage, and restoring the rebels to power, to believe that such is his own policy and that of the Democratic party, and that by this course he would expect to bring the national bonds and currency to par and so end all our financial evils. It is a little singular that the whole remedy thus put forth as the all-healing National Pain Extractor by the bland and oily Seymour, was fully tried, without opposition or interruption, from May, 1865, to February, 1867, by Andrew Johnson, who did all in this direction that Seymour could have asked; and that instead of producing such results as he now predicts it organized pandemonium throughout the South. It placed the rebel element in power in every State; it passed black codes restoring the freedmen to slavery; it organized the defeated rebel hosts into gangs of negro-hunting militia, it elected rebels to the Senate and House; it suppressed political freedom, attacked Union forces, murdered Union men by scores and freedmen by thousands, and inaugurated a general reign of violence and terror, which culminated in the massacres at Memphis and New Orleans. Governor Seymour contrasts the expenses of the government for four years after the war with those four years before it, and says that had his policy of denying political rights to the negroes been carried out it would have reduced our expenses during these four years fully one-half. Unfortunately for this assertion, during nearly three years out of the four, and those the most expensive ones, which followed the close of the war, Governor Seymour's policy was in full operation, its author, Andrew Johnson, being allowed to enforce it in all its whims and details with the absoluteness of a dictator.

If the expense and delay of reconstruction have been very great, and if, as Mr. Seymour contends, it is because of these facts that our bonds and currency sell for only 72 cents in gold per dollar, it is unfortunate for Mr. Seymour's statesmanship that three-fourths of the delay and cost arose under the vigorous application of his own policy. Nor does he succeed in showing that negro suffrage has rendered necessary greater military forces. So far from it, the South has not been so nearly at peace, especially between the whites and black races, for fifty years past, as since the blacks began to vote. Not only did the elections in all the States pass off without violence, but the same Democratic politicians who, a few years ago, were threatening the destruction of the negro race if they should be allowed to vote, are now making courtship speeches to the blacks to woo them to the support of the Democratic ticket. Meanwhile, these States are returning peacefully into the Union, and Gen. Grant, who is a far better judge of the cost and need of military operations than Governor Seymour, states that the sooner the Union is restored on the policy of Congress the sooner the army can be reduced, and our expenses brought back to the *status quo ante bellum.*

Governor Seymour says that our bonds and currency are depreciated because our national credit is impaired. To his question, why it is so impaired, and why we are now paying six per cent com interest on a debt of [illegible] 000 we answer, it is because the Democratic party was so numerous and powerful that when, in the year 1860, it rebelled against the government, and fought to dissolve the Union, it cost the loyal people a million of lives, and twice the amount of the national debt, and four years of carnage to suppress it. Had the Democratic party been fewer in numbers its rebellion would have been earlier suppressed.

We sympathize with his regrets that President Johnson has been "so manacled that he can no longer punish crime or protect innocence," but our grief is assuaged by the thought that he can no longer punish innocence or protect crime. This cloud, at least, has a lining of very pure silver.

His statement that the tariffs have swept away all American ships does injustice to the achievements of those gallant Democratic privateers Lynch, Semmes, Maury, Bulloch, and the rest, who supplied by British [illegible] with the means, and encouraged by [illegible] Democratic platforms with the motive to carry on their warfare, either captured all American vessels outright or compelled them to sell out or register as "British vessels." Such agencies may be styled tariffs by courtesy, whose oratoric license approaches that of Gov. Seymour, but they were tariffs of wholly Democratic origin.

PORTLAND, OREGON, July 14, 1868.
P. D. MOORE, Esq. Sir—

The undersigned having witnessed the exhibition in this city yesterday of your "Extinguisher," or Portable Self Acting Fire Engine, would state that the first experiment of a fire kindled outside of the building erected in the rear of the Central Public School House, made by using shavings, staves, tar, &c., was effectually extinguished with one machine in a short time; that the second experiment of a fire in the inside of the building, made by using shavings, kerosene, staves and dry stuff, was also promptly extinguished by the use of one machine in less than three minutes. The third experiment was left to the control of the Fire Department, under the direction of the Chief Engineer and the building was fired inside and outside *and when the fire was well under way* the Chief Engineer gave the order to "extinguish," and the fire was effectually put out in about six minutes. A brisk breeze was blowing at the time, and we pronounce the experiment successful and satisfactory. We are satisfied that the "EXTINGUISHER" is very valuable for what it claims, namely the prompt extinguishment of fires in their earlier stages, and being portable, self acting and always ready at a moment's notice, would, if generally introduced, save much valuable property from destruction and we regard it as a valuable auxiliary to the Fire Department. They are indispensable in those localities where no steam or other fire engine is in in use, and we recommend their use generally in dwellings, stores, hotels and public buildings.

Very respectfully
W H WEED, Chief Engineer Portland Fire Department.

ON BOARD THE ALASKA, Portland July 12, 1868.
P D MOORE, Esq.—Sir: I have just returned from witnessing the operations of your "Extinguisher," or Portable Self Acting Fire Engine and confess I was both surprised and highly pleased with its use.

I have no doubt whatever of its efficiency and adaptation in putting out fires in their earlier stages, however combustible the materials may be that are on fire. Its action as a flame is really magical. They should be in every house of any value or which contains valuables as well as on board of vessels. No one can estimate the additional security they give to both life and property. You will please furnish me two of the No [illegible] immediately for the Alaska, as I sail for Honolulu to-morrow morning. Very respectfully
R. CALHOUN,
Master of steamer Alaska.

A Huge Disgust

The following letter dated Roseburg Oregon April 26, 1868 appears in the Chicago *Times*

Allow me through the columns of your valuable journal to state a few facts in regard to this coast which I am the more induced to do learning that a great tide of emigration from the east will soon come pouring in on our shores in such numbers as will more than satisfy the largest employers. With laborers, brokers miners and other immigrants tramping the country from San Francisco to Puget Sound, filling and overflowing every avenue of labor, and hundreds unable to get anything to do what can be hoped for the 50 000 coming immigrants. The fact is, not only Oregon alone, but the whole Pacific coast is overstocked with labor, until it is a drug. This will seem reasonable to any man of reflection who will ponder for a moment. The general class of immigrants to this coast are poor adventurers with nothing to lose, and with dreams of gold before them. The many have failed, while a few have secured a piece of land and a dozen or so of coolies but are not wealthy enough to hire their more unlucky countrymen, whose numbers are swelling to immensity from the fresh arrivals constantly coming by land or water.

Before I left the States for this coast I was informed by a young man who had been here, that among a company of 14, he alone made enough to come home. This seemed almost incredible to me until I was here some months when such complaints were echoed on every side. To add to the difficulty of procuring labor, may be mentioned the influx of the barbarian hordes of China insidiously edging their way into every department of labor, casting the white man aside and even aspiring to some of the trades. These Mongolians are the especial pets of commercial Boston and New York. It is a nice little scheme for the negro and Chinese equality merchants and Congress to put their heads together, and, under the cloak of commercial treaties, to secure a noxious weed or a piece of silk (tariffed, by the way, too high for a poor man's wife to wear), to overrun our country with these savages and put labor so low that a poor man cannot even make a living. Of course, this is chiefly the sea-coast at the east but San Francisco has its due number of Yankees ready to hire their Chinese pets if they will only work for five cents a day less and, work you never so cheap, they will always work for less.

To use the slang phrase, mining is played out that is, so far as labor is concerned. Scarcely any public work is going on, and all is dull and lifeless. If you are a laborer, or a poor man, and have your health, stay and till the rich prairies of Illinois, or Nebraska, or go south, but never cross the Rocky mountains save for health. There are as good openings here for men of capital to build mills on our Alpine streams, and immense numbers of sheep are raised in the country, but don't come here to sell goods, because this country is so overstocked with merchants that they are compelled to sell their goods at 200 per cent profit to make a living.

Onward more I am afraid a large number of you must be disappointed if you come here with the expectation of finding a "liberal, open hearted people," as a few correspondents occasionally say. Crafty Californians! how open hearted they are in providing a champagne and oyster supper, which returns them a hundred fold. But go behind the scenes WITH A SUCKER.

The Chicago *Times* is a Copperhead paper, and this correspondent is evidently of the same stripe. He seems to have recently arrived in Oregon,—probably from Pap Price's army,—and from the way in which he talks about labor he is no doubt an admirer of the "peculiar institution" which lately existed in the Southern States. He is clearly one of the gentry who disdain to work, or he could have found employment enough. These chaps always have a great deal to say about the difficulties and wrongs of working men. None can [illegible] the hard fate of the working classes, or denounce the injustice that is shown them, so loudly as they. The laborer hasn't half a chance, what is to become of him? is the thing which they persistently demand to know. Their solicitude on this subject is only equaled by that which possessed the two [illegible] in prison in England when the French invasion was threatened. They say, said one, looking through the bars, that the country is to be subjugated; what will become of our glorious liberties? And, responded the other, Popery will be established, what the d—l will become of our holy religion?

The writer of this letter, it is very clear, never wanted to work. Industry and determination would have found him any number of "good openings." He is doubtless one of a large class who have come out here hoping to dig up gold in limitless quantities in a single year, and then as he expresses it, "go home." He did not come here to work patiently to establish himself permanently and grow up with the country, and his disappointment grows out of his failure to realize the golden dreams which he, with multitudes of others, has pursued to these western shores. If people come to the Pacific coast in these days expecting prosperity, they must come to stay. If they come with this view, and work with industry and perseverance, they cannot fail to do well.

It is a recognized fact by all who have lived in Oregon for any length of time that a livelihood may be obtained here with less labor than in any other part of the Union. And a "poor man" in Oregon may by his labor more quickly raise himself to a condition of independence, than in any other State. There is no excuse here for the poverty of the man who has ability to work. He can always find employment in some branch of industry. And, notwithstanding the alleged competition of Chinese labor on the Pacific coast, and the fearful depression of white labor which this letter talks about, it is a fact that labor commands now higher wages in Oregon and California than in Chicago. More coin dollars are paid here for a month's work than paper dollars in Illinois or Ohio. The time has not been since the first settlement of Oregon when an industrious enterprising man needed to have been idle one day for want of something to do. The idea that in a new and growing country like this where new industries are continually opening and where half a continent, abounding in all the elements of wealth, is waiting for development,—the idea that in such a place a man can find nothing to do, is too ridiculous to be asserted. Oregon wants population and can furnish room and employment for any number who are likely to get here within the next twenty years. But we do not want adventurers who come in the hope of picking up a speedy fortune and going elsewhere to enjoy it. We want permanent citizens. We do not want those whose inflated ideas about obtaining sudden wealth disqualify them for attempting the serious work which every man who undertakes to establish himself and his family by honest effort and intelligent labor should expect to perform. If people will come to Oregon prepared to work as they have been accustomed to do elsewhere and to build up their fortunes gradually and by patient striving as they would expect to do in Iowa, Missouri or Illinois, they cannot fail. And they will have more success in Oregon and achieve it easier than in any of the Mississippi valley or Eastern States.

Grant's Mississippi Order

The Applegate Wh[illegible] is the National complaint in Oregon. It says: The Jacobins are trying to mount [illegible] their war horse in Oregon. W[illegible] [illegible] will have to issue another order against the Jews to prevent them voting or he will not carry a State west of the Alleghanies.—*Herald*

As Jews are men who generally possess common sense along with their [illegible] kind, it is an interval that they can be caught with such bait as this. This proposal of the Herald is undoubtedly Democratic, is one of the most shameless efforts of demagogism ever witnessed. It is the act of a party appealing for votes, utterly regardless of the interests or welfare of the class whom they hope to make their dupes. When the Mississippi order was first issued, written an ex-soldier, no remonstrance was raised by the Democracy. No appeals on behalf of injured and persecuted Israelites went up then as with one accord from the Democratic press, as there were no votes to gain by it. Now after dormantly slumbering for six years, they suddenly discover a wicked and unjustifiable persecution and raise a loud howl against the persecutor.

Grant's Victories

The New York *Sun* whose editor was Assistant Secretary of War during the last year of the rebellion, furnishes official figures in regard to the campaigns in Virginia which show that the Army of the Potomac while marching to victory under Grant lost forty thousand fewer men than it lost in its fruitless marches and battles before he took command. The killed wounded and missing before Grant was placed at the head of the army numbered 141 118 under Grant the losses of the army down to the surrender of Lee were 104 501. The period of time covered by the campaigns under Grant's predecessors was the larger it is true but Grant fought nearly as many battles as all of them combined, and every battle placed him nearer his object. McClellan's losses which were nearly as large as Grant's led to nothing whereas those suffered under Grant led to a triumphant peace.

In a Fix

The La Crosse *Democrat* the paper which has 200,000 subscribers has not come to hand since the New York Convention, but here is what it said about Seymour before the Convention was held.

What a beautiful fix we should be in, were we to adopt Gov. Seymour's views, re-affirming in substance the Jacobin (Rep) platform on the financial question. How grandly we could rally the masses, What stirring appeals we could make to the plow-holders. What a splendid campaign it would be with no issue that would touch the real interests of the people, arouse enthusiasm, fire the popular heart and consolidate, strengthen inspire with confidence, gladden with assurance of victory the Democratic Legions. Out upon the thought! Spurn all such suggestions! Treat as enemies all who would counsel such suicidal policy. Away with the insidious advice of those who would thus delude, betray and ruin us. It is false to Democracy. It is treason to country. It is death to liberty.

STATE ITEMS.

Grant Clubs have been formed at La Grande and Oro Dell in Union county.

The *Times* says that the "Democracy" of Union county don't like to vote for the man who chased them out of Missouri and hung their associates as rebels.

Cleary, the man reported last week as having been shot by one Pratt, at the Grand Ronde mines, lived but about three hours after the shooting. Pratt went to La Grande and placed himself in the hands of the officers. The chances are said to be more than probable for his acquittal.

The *Blue Mountain Times* has intelligence from Shasta that a new ditch is in progress, in opposition to the big ditch of Carter & Co., much improving the chances for water this fall. By next spring they will undoubtedly have all the water they can use. All are satisfied their claims are rich and are awaiting the arrival of the water with all the patience they can muster.

The Butte county (Cal) *Press* is a paper whose politics precisely suit the Oregon *Herald*. The *Press* says "Any man who, in a Fourth of July oration, would denounce the action of the Southern States in withdrawing from the Union as treason, is a shameless, hypocritical Tory, and spits upon the Declaration of Independence for the warrant for such withdrawal is there given in unmistakable language, which will bear no other construction. Those who justify the war against the South, renounce the American system of self government, and indorse the British system of governing by force—they damn themselves to an eternity of infamy."

Of what avail is it for the Democratic party to feign loyalty and patriotism, when every man in the country knows that the war for the maintenance of the national authority was denounced by nearly all Democrats—by some as "unholy" by some as "unconstitutional," by some as "an invasion of sovereign States," by some as "brutal bloody and cruel" and by some as "unnecessary" and that the vote of the Democratic members of Congress were in keeping with the talk of Democratic speakers and papers and the feeling of Democratic voters.

A Zanesville paper describes a monstrosity to which a woman gave birth in that neighborhood lately. The body of the child is naturally formed and perfect in all respects, but the head, instead of a mouth, has a well formed trunk, like an elephant's proboscis, through which is received all the nourishment that the child partakes. The youngster is said to be intelligent as children of its age generally are, and enjoys good health.

Seymour, during the New York riots, sent a commissioner to Washington, to secure the suspension of the draft in obedience to the New York rioters, instead of undertaking to sustain the law but the Government sent Butler to sustain Dix in the enforcement of the draft and restoring order to the great disgust of Seymour and his friends of the Five Points.

The New Hampshire *Gazette* of Northampton, Massachusetts, now in the eighty second year of its publication records the death of Eliphalet Packard, formerly of Cummington who "has been a regular subscriber of that paper from its first issue, and observes that "it is doubtful if to the day of his death a single copy has escaped his notice."

A rich farmer of Calais Maine, aged sixty five, recently married a second wife who is only nineteen years of age. A daughter of his first wife is forty years old, and her daughter aged twenty, is about to be married. Thus there is a child who is twenty one years older than her mother, and a grandmother who is a year younger than her grand daughter.

There was a "monster meeting" at New York not long ago to rejoice over Seymour's nomination. This was the way the Copperhead press reported it. Of course it was a "monster meeting" since it was gotten up by Seymour's "friends, the monsters who murdered carolling officers and negroes and sacked orphan asylums in 1863.

It having been reported that Gen Halleck would support Seymour against Grant, the San Francisco *Bulletin* gives the statement a specific and emphatic denial.

A learned German astrologer is said to have ascertained that in twenty million years the earth will be destroyed by a comet. Timely warning.

Copperhead papers claim that their party saved the Union. They will be claiming yet that "General" Lee saved it by surrendering to Grant.

This reminds us of Andrew Johnson's remarks in the Senate on the 31st of January, 1862 on the resolution to expel Jesse D Bright.

"Is there a Senator here who would have voted to have Aaron Burr to take a seat in the Senate after his acquittal by a court and jury? No there is not a Senator would have done it. Aaron Burr was tried in court and he was found not guilty he was turned loose *but was the public judgment of the nation less satisfied of his guilt* than if he had not been acquitted? What is the nation's judgment, settled and fixed? That Aaron Burr was *guilty* of treason *notwithstanding he was acquitted by a court and jury*.

The case of John Smith has already been stated to the Senate. A true bill has been found against him for his connection with Burr's treason but upon a technicality, the proof not being made out according to the Constitution, and Burr having been tried first and acquitted the bill against Smith was quashed, as he was only an accomplice. * * * But John Smith was a Senator and he came here to this body. He came again to take his seat in the Senate of the United States and what did the Senate do? They took up his case they investigated it. Mr Adams made a report able, full, complete. I may say he came well nigh exhausting the whole subject. The committee reported a resolution for his expulsion, and how did the vote stand? It is true that Mr Smith was *not expelled* for the want of some little formality in this body, the vote standing 19 to 10. *It only lacked one vote to put him out by a two thirds majority* according to the requirements of the Constitution. *What was the judgment of the nation?* It was that John Smith was *an accomplice of Burr*, and the Senate condemned and almost expelled him, *not answering itself down to* those rules and technicalities that are resorted to in courts, and *by which criminals escape*."

The Sacramento *Union* thus answers the question, "Who ruled the New York Convention?"

The New York *Tribune* of June 29th contains a long editorial, with extracts from the Southern Democratic press, to show that the Tammany Convention was intended to be manipulated and managed in the interest of the late slaveholders. The article treats the effort to nominate Chase as a trick to kill off Pendleton. Those who entered into the spirit of the Chase movement in good faith with an earnest wish to get the party out of the Copperhead rut, were over-slaughtered by the South—"blasted by the breath of the Southern Bourbons," as the *Tribune* puts it and these Bourbons handled the reins from beginning to end, in the interest of "the white man's Government they inaugurated at Montgomery seven years ago, and which they are still bent on having, whether in the Union or out of it." The *Tribune* detected part of the game, but not all of it. The nomination of Seymour had doubtless been secretly agreed upon beforehand, but the *Tribune* never suspected this part of the programme. It says "A clique of our New York wire pullers are laying pipe for Seymour, but to no purpose." It thought Governor English's chances better, and Hendricks good against the field. The "master's" of the Democracy didn't think so. They had their work all planned and every detail arranged months ago. They could trust the man who as Governor of New York in 1863 resisted the draft and created a formidable diversion in favor of Lee at Gettysburg and Pemberton at Vicksburg, before any other, and they doubtless had him nominated secretly long before they held out the bait which tempted Chase to betray his party and compromise the professions of his life.

The Iowa *State Register* in talking about the debt, bonds and taxation, retorts upon the Democratic party in this style

To morrow—the first of July—the Secretary of the United States Treasury will do the little job of cashing eight million dollars worth of Mexican war bonds. Who, and what party, and what financial wisdom issued these bonds? Who were the authors of this musty old debt? 'Twas this virtuous old bond hating, bullion loving, debt despising Democratic party. To day the members of that political clan are in spasms of hydrophobia about the national debt, and yet twenty years ago, they issued these $8,000,000 of bonds to holders who have ever since drawn their semi yearly interest in gold. And further yet, these bonds have been all the time exempt from State tax and until a Black Republican Congress imposed an income tax on the interest arising from them, not a cent did the holders pay to the national government.

How do you like the story of your own bond making, debt imposing administration? Until the revolution of politics ousted you from power you could not see that non tax paying bonds were such monstrous things. The whirligig of time has brought you much ill luck but even in your chagrin you should not so vigorously damn that which you yourselves so virtuously introduced.

The Chicago *Tribune* shows how Jeff Davis has been repeating history

"It has been remarked a thousand times that history repeats itself, and this occurs in the best as well as the meanest actions of men. During the stormy reign of James the Second of England he found an infamous renegade from the reformed faith, of the name of Perth, to execute the royal mandates in Edinburgh. The Chancellor was an energetic as well as an ingenious tool of His Catholic Majesty, and was the first to introduce the thumb screw, a most villainous instrument of torture, into the jurisprudence of his country. The tempers of the sturdy old Scotch Covenanters did not become any the sweeter under the pious effects of the thumb screw, and when James fled from England in January, 1689 Perth found Edinburgh decidedly to warm a place for him. He fled first to Drummond castle and finding he could not trust his own vassals thence across the Ochill mountains and took refuge on board a ship at Brentisland, intending to escape to France. But the Covenanters were on his track, and before the vessel could make sail she was boarded, and, to use the precise language of Macaulay (see his last chapter of the first volume), Perth was dragged out of the hold in woman's clothes." So it seems that Jeff Davis in his flight, simply copied the meanest act of one of the meanest tools of the meanest monarch that ever cursed the throne of England.

The London *News* says of Grant's nomination

"There are some circumstances which render the nomination of General Grant singularly opportune. He is not a politician, and the nation is tired of politicians. He is a soldier with a soldier's idea of duty, but with a civilian's respect for legislative authority and the national will. He has probably no definite policy of his own, but it is of a President with a policy that the republic is suffering. He is accustomed to obey as well as to rule, and it is a President who will do its work and obey its behests whom the nation needs. The very fact that after by turns exciting the suspicion, he has won the confidence of all parties proves his fitness for the highest post in the Commonwealth. A President should be a practical statesman, not a theorist—a man of deeds rather than of words; the executive of the national will not the apostle of his own self will. He has no right to a policy which is not the policy of the nation, and in his office he belongs neither to his party nor himself, but to the nation which has elected him to its temporary headship."

The New Orleans correspondent (June [illegible]) of the Chicago [illegible] gives the following:

The *Crescent* takes issue with the New York [illegible] in the statement of the latter that the Southern Democracy have given up the contest and will let their seventy electoral votes go for Grant without a struggle. It says the Radicals will never again cast so large a vote in Louisiana. The great mass of the Republican votes come from the colored population, but the white population is greatly in excess [illegible] and the white vote under the new Constitution will be several thousand in excess of the black. It also counts upon a large negro vote for the Democratic ticket, remarking, that the result at the last election in St Martin's Parish, East Baton Rouge, West Baton Rouge, Claiborne, DeSoto and Caddo shows what can be done by proper organization and proper work. In those parishes the black registration was nearly 400 greater than the white registration and yet they gave a Democratic majority of nearly 000.

The same paper advises the New York Convention to [illegible] negro suffrage as among the accomplished facts of the situation and to insist upon leaving the general question of suffrage and the future regulations of the States with [illegible] whatever between Northern and Southern States as to the right of fixing the qualifications of voters.

A late Eastern letter has the following about "Planchette":

This new game is making a great sensation. It is a sort of parlor exhibition and oracle and has spiritual and mystical [illegible] which only a favored few can develop. In appearance Planchette is a simple board shaped like a heart standing on three legs and moving about on two pentagraph wheels by gentle pushing. It writes with a soft lead pencil in a scratching way and a motion of the people. [illegible] make most astonishing statements. The method is for one or two persons to lay their hands very lightly upon her, treat her [illegible] their wills towards the object of making it answer their questions. When a sympathy is established or the electric current is set [illegible] then will answer any [illegible] and make most independent statements [illegible].

The following paragraph is from the *Boston* [illegible]:

It is said to be understood among the admirers of Andrew Johnson that if the Managers shall show by satisfactory evidence that the majority necessary to his conviction was defeated by means of bribery in the Senate that, disdaining to retain office through such infamous means he will immediately resign. We desire it to be understood however that we are not among those who console themselves with any such [illegible] expectations. In the first place we do not believe that the admirers of Andrew Johnson would allow him any longer if he performed any such act and in the next place we do believe, that a man who is capable of retaining office in the face of a verdict of guilty by thirty five Senators against nineteen, is quite capable of holding on though it may be made ever so plain that the thirty five voters for him constituted a valid two thirds over every unbought vote.

The rich Jap who is coming to Paris in search of a pretty and virtuous wife is expected shortly at Marseilles in a steamship that he has had built expressly for the trip. He intends to settle in Paris and wants to buy the whole right bank of the Seine for a palace. His income is $30 000 000 a year. What a blessing if we could only get him and tax him.

An Illinois farmer, whose crops were destroyed by the storm early in the month tried to cut his throat by way of consolation. He succeeded in severing his windpipe and œsophagus and is now taking his food through a tube inserted in the wound and lying lowly and uncomfortably.

Five minutes before three o'clock on July 1st wheat sold ready in Chicago at $2 20 per bushel. Five minutes after 3 o'clock it was freely offered at $1 85 but no one wanted it and no one bought a grain. Shrewd operations of speculators.

ANOTHER TRIUMPH OF LEFFEL'S DOUBLE TURBINE!

The Leffel Wheel Over 40 per cent. Ahead of the Welch & Burns Wheel.

The following extract of a water wheel test is also copied from the Springfield (O) *Republic*. Water wheel tests are becoming frequent and we copy the following knowing that it will be interesting to many of our readers.

About two years ago Mr Daniel Hestzler built a fine flouring mill two miles west of this city (Springfield Ohio) and purchased two Double Turbine Wheels of Messrs Leffel & Co.

Before the mill was completed Mr Hestzler was murdered, but previous to his death Messrs Bechtell & Binkeny manufacturers of the Welch & Burns wheel offered to put one of their wheels into the mill and if it did not equal the Leffel wheel to donate it to the mill. At a later period Messrs Leffel & Co consented to put in one of the two wheels already sold to Mr Hestzler on the same terms but it was agreed that the firm whose wheel won was to be paid for it.

Mr Hestzler was murdered before the mill was completed and after many unavoidable delays, the test came off May 11 1868.

A committee of seven was mutually agreed upon, and finally the trial was entered upon all the preliminaries having been carefully and satisfactorily arranged and agreed upon. The following report of the committee shows the result.

"The undersigned judges selected to test the power of the Burns & Welch water wheel with the Leffel Double Turbine made the test of the two wheels at the new Hestzler mill on Mad river about two miles west of Springfield, on Monday, May 11, 1868, with the following results:

Time of grinding fifteen minutes each

1st Burns & Welch wheel (45 inches diameter) No cubic feet of water used per minute 1 15 23-100. No of pounds of flour ground in same time, 141½

2d Leffel wheel (40 inches in diameter) No cubic feet of water used per minute 1 431 84-100. No of pounds of flour ground in same time, 201¾

At the request of Messrs Burns & Welch a second trial was had which resulted as follows each wheel using the same number of cubic feet of water per minute. Burns & Welch wheel, 80¾ pounds in ten minutes. Leffel wheel 101¾ pounds in ten minutes.

A REBERT
WM LOWRY
LEVI TEMPLETON
FRANKLIN RITTER,
F P STONE,
I D MOWTLB
Committee."

The above tests were made with full drawn gates each wheel using all the water it could. At the suggestion of the proprietors of the Leffel wheel, the two wheels were tried with partial gates. The same committee acting as judges made the following report.

The undersigned judges appointed by the parties interested to test the above mentioned wheels at full gates at the request of Messrs Leffel & Co we tested the said wheels at half gates with the following results:

1st Burns & Welch wheel (45 inch diameter) No of cubic feet of water used 590 2 10 per minute No of pounds of flour ground in ten minutes [illegible]

2d Leffel wheel (40 inches diameter) No of cubic feet of water used per minute, 636 36 100 No of pounds of flour ground in ten minutes 110 pounds

Signed by committee as above.

By the perusal of the foregoing report it will be seen that if the Leffel wheel could have used the same quantity of water as the Welch & Burns wheel it would have ground 241 pounds just 70 pounds more than the Welch & Burns wheel which in round numbers amounts to 40 50-100 per cent more work with the same water in the same time. At this rate of grinding the Leffel wheel would grind in 24 hours 120 bushels more wheat, the toll of which in twenty [illegible] pay for the wheel.

The fall at the mill where the test was made was only five feet and four inches.

The committee mutually agreed that the test was fair thorough and satisfactory as could be made.

CAUTION.

To all whom it may concern. I hereby give notice that the so-called Shipley's Pacific Turbine Water Wheel" is a direct infringement and copy of the James Leffel's American Double Turbine Water Wheel and its manufacture and use is hereby prohibited. Any person or persons making, using, constructing or vending said Water Wheels make themselves liable to heavy damages and penalties. Parties interested will take notice, for I shall prosecute said infringements to the utmost extent of the law.

That all may know I mean what I say and am not playing *bluff* I give the following extract from a legal opinion on this subject from one of the most eminent Patent Attorneys in the United States.

WASHINGTON, D C, April 17 1868

MR A MYERS—In accordance with your request we have examined the patents of Shipley on Water Wheels and are clearly of the opinion that they both infringe the Leffel's patents. In both of Shipley's Wheels he uses the upper and lower tiers of buckets precisely as Leffel does and in this he clearly infringes. The fact that Shipley has applied another series of buckets in addition to those used by Leffel does not relieve him from the consequences of infringement at all. He has no right to use those two tiers of buckets whether as one or with a third or any other number of tiers added. It is a clear infringement. Respectfully yours,

DODGE & MUNN

I hereby give notice that I will prosecute every infringement on our Patents, whether it is the maker user buyer or seller. Every infringement, whether our claims are used in whole or in part will be prosecuted.

THE WEST SIDE RAILROAD.—It is perhaps due to the public that we give them from time to time such information as we have concerning the progress of enterprises in which they have a deep interest though we may have to do it at the risk of being thought tedious We have often therefore made mention of the work done or to be done on the two lines of railroad now in course of being graded and may often do so in the future We visited the west side line yesterday going over nearly all of the route thus far graded and a considerable distance along the survey beyond where any work has been done as yet The grading proceeding from the initial point where ground was broken is connected to a point nearly two miles south and will need but little further preparation to make it ready for the ties About two miles from the starting point there is a deep canyon—about 50 feet from the grade—which will be bridged. There is here of course a gap in the grading Beyond that about three fourths of a mile is the deepest carrying of the whole route—75 feet from the grade to the culvert On the city side of this canyon a gang of men are at work in a cut of two or three hundred yards in length and much of the way from 10 to 16 feet in depth This is about three fourths done On the other side of the canyon, is the deepest cut of the whole route—56 feet measuring from the upper hill line of the grade Fortunately however, the ridge to be cut through is a sharp narrow one and contains no rock The ground to be removed is a heavy clay Its nature is such that in the process of dumping and rolling down the embankment it packs almost as hard as it originally was in the mountain side and it will therefore make a first rate foundation The bottom of the cut is fourteen feet wide and at the top it will be near 100 feet the slope of each bank being as one to one and a half. This cut is now about half finished and with the force now employed will be finished in about a month Only about twenty men with eight carts, can be employed at this cut for the reason that the earth is all wanted in the canyon before mentioned as the work is therefore prosecuted only from the northern end Beyond this point other gangs of men are at work at various points Rock has been encountered at only one or two places The next deepest cut is just beyond and is twenty six feet deep At this point also, the cut is a short one and the earth is easily removed There are beyond those mentioned two or three cuts of less depth and several canyons of less formidable depth and breadth to be filled or bridged The forward gang of graders are at work on a light cut about three fourths of a mile this side of the summit All the wheel-barrow work between this point and the place of beginning, has already been done but there is of course, considerable carting to be yet done Between the place where the forward gang of graders are at work and the summit the deepest cut to be made is thirteen feet The most of the work will be quite light The amount of work done considering the force employed seems immense On part of the work with all the grading we have ever seen it seems well done Wherever the track has been graded to its permanent level a ditch has been dug on each side to carry off water and the banks are sloped so as to obviate danger of caving The total force employed on the road averages about one hundred men, counting each horse and cart as equivalent to one man though the pay rolls show about one hundred and seventeen Owing to the conformation of the mountain side, the track will be somewhat crooked though none of the curves are so sharp as are frequently met with on some of the principal roads in the Eastern States The sharpest curve of the line thus far surveyed is 12 degs The ascent from the initial point to the summit is not great or at any place than eighty feet per mile The cost of completing the first five miles of grading—to the summit—judging from what experience has already been had will be about $25,000. This is a much less sum than most would estimate after looking at the work done The surveying party, under Mr John Brazee is engaged in marking the line and grades down the western slope of the mountains from the summit westward, the grading will be somewhat heavy for a mile, and then there is no further or greater trouble than on a level plain It really seems that the company has worked already through the most difficult part of the first twenty miles and that in a short time, it will have only plain sailing, so far as the grading is concerned

PUBLIC READINGS.—Prof W W Moreland of the Corvallis College, will give a public reading this evening at Oro Fino Hall, consisting of selections from some of the most celebrated authors He and Prof Emery are on a visit to this city in the interest of the college the present ... being to acquaint the public more thoroughly with the institution to which they are attached and to obtain assistance in the purchase of philosophical and ... apparatus for the use of the college Prof ... is an elocutionist of considerable note, though still a young man He will read to night, Cousin Sally ..., Poe's Raven, Paul Revere's Ride, Ballad to the Fallen Angels, The Wonderful One-Horse Shay and other ... We trust that our people who have the general ... education at heart will come out to-night to hear him, and that they will see that these gentlemen do not leave the city without having received material aid for their ... The College, as we learn, has a good ..., if the apparatus now wanted can be had. The ... last term numbered one hundred and ... There are four teachers Prof Finley, ..., W W Moreland, ... of Primary Department; and Mrs Armstrong, teacher of music. The ... to-night will be free and a general invitation is extended to all to be present.

JURIES IN CITY CASES.—In a case now pending in the Recorder's Court, the question is raised by the City Attorney whether a jury can be called in a case where the city ... The question was argued ... yesterday at considerable length by Trimble, City Attorney, and Caples for the defendant. The ... will ... till this morning If there be any ... to get rid of the ... of calling juries in ... a great point would be gained not only in the ... of justice but in saving the city ... It may be a big thing in the abstract to ... the right to be tried by a jury of peers; but practically ... actions are about twice as liable ... a farce of a trial as they are to do justice ... the public and the officers. We ... cases the last year where ... juries, ... the proof of ... charged were clear and positive. This sort of thing is so notorious that it has come to be a practice ... attorneys ... whenever they have a case to defend ... the law and the evidence bear hardly to ... a jury; and then the wheedling and the farce begin ... finally ending in an acquittal and the taxing of cost ... the city By all ... if the charter will sustain ... by the City Attorney, juries in ... will

TRADE WITH AUSTRALIA.—The bark *Whistler* will probably sail for Sydney, Australia, about next ..., with a full cargo of Oregon produce On her ... will bring coal to Honolulu for the China ... Company Mr McCraken informs us that ... probably return here for ... cargo of produce ... which we presume is dependent somewhat upon the result of the present venture As throwing ... upon the prospect for profitable shipments of ... to Australia, we may state upon the authority of the *South Australian Register* of March 31—just after the last harvest, that the Government ... show the following The number of acres of wheat ... the last harvest was 556 818 The average yield per acre was only four bushels and forty two sixtieths ... number of bushels 2,385 927 In ordinary seasons ... five bushels of wheat have been taken as equivalent to a ton of flour Of the crops of 1867-8 it is estimated that fifty five bushels will be no more than equal ... a ton. This is a bad showing for a crop and is very ... contrast with our invariable yield—say 20 to 25 ... per acre of plump heavy wheat

... ORDERS.—It is not generally known that the ... of the money order system is to afford facilities for the *safe* transfer through the mails of small sums of money—say from one to one hundred and fifty dollars. The mode by which safety is secured consists in ... out of the order the name of the payee or party ... the money is intended In this respect a money order differs from an ordinary bank check An advice or notification, containing full particulars of the order, is transmitted by the issuing postmaster to the postmaster at the office of payment The latter is thus ... before the order itself can be presented with the necessary information to detect fraud if any should be attempted

The extreme low rate of exchange being only about one-half of one per cent will when the system is better understood, bring it into universal favor Mr Randall ... is prepared to furnish orders in all sums within the range prescribed by law

PAUPERS.—The County Commissioners continue to receive numerous applications from persons who desire to enter the county hospital Many of the applicants are able to do some work, but are perhaps unqualified for the time for getting a living The Commissioners are of the opinion that if they could take these persons and instead of placing them in the hospital to be fed in idleness ... furnish them with light jobs of work the results would be beneficial in many cases to the applicants themselves and a saving to the country There can be no ... of it We have been requested to state that the ... with a view to the trial of this policy ask the people to keep them posted as to where light jobs of work can be found where these poor can be temporarily taken care of under the direction of the Commissioners and paid such sums as their services great or small, may be worth. The experiment is worth a trial

BIG PRICE FOR LAND.—Just up the mountain from the brick yards out on the McAdamized road there is a small tract of bench land crossed by the West side railroad It lies at a gentle slope toward the river and has on it a thin growth of timber Mr Terwilliger to whom the tract belongs recently sold five acres along the line of the railroad for *one thousand dollars* We mention this as a specimen of the effect which a railroad begun has upon the price of adjacent lands We doubt if the same five acres could have been sold a year ago for one hundred dollars

BASE BALL MATTERS.—The Athletic club of this city played the Spartans a game last Saturday and beat them badly Since that time they have sent a challenge to the first nine of the Clackamas club The Athletics are going to make it very hot for the crack club before the ... is over The Pioneers have received a challenge from the Washington club of Vancouver and we understand have accepted it but no time has been definitely agreed upon

LANDS TO SELL.—See the advertisement of the Oregon Central Railroad Co West side of lands and lots for sale They offer none but such lots or tracts as have been deeded to them ... originally and the titles ... are not open to question There is a first rate opportunity now to buy in estates where there can ... be a possibility against an advance in value. CHARTRES COFFEE!
Manufactory Established in June, 1861
STEAM POWER NOS 625 AND 627 FRONT ST
HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts
The undersigned who has always enjoyed public confidence for the excellent quality of his Coffee neglects nothing to justify the good name acquired by his productions the sale of which daily increases The acknowledged superiority of his merchandise which command is here and in the markets of the interior a relatively higher price excites the cupidity of some manufacturers and every day he sees increasing the number of those who by counterfeit or imitation of his mark seek to deceive the public palming upon them their inferior productions for the genuine G VENARD CHARTRES COFFEE This fraud can deceive nobody after a trial but ... adds to the favorable opinion of the consumers the very flattering though unwilling testimony of the counterfeiters Nevertheless buyers should be forewarned and placed on their guard against this practice

HOSTETTER'S
CELEBRATED STOMACH BITTERS!
A Pure and Powerful Tonic,
Corrective and Alterative, of wonderful efficacy in Diseases of the
STOMACH, LIVER AND BOWELS.
PROTECTIVE PROPERTIES.
Prevents Fever and Ague and Billious Remittent Fever
Fortifies the System against Miasma and the evil effects of unwholesome water invigorates the organs of digestion and the bowels,
Steadies the Nerves and tends to Prolong Life.
REMEDIAL PROPERTIES.
Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache General Debility Nervousness Depression of Spirits Constipation Colic Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of ... arising from Bodily Weakness, whether inherent in the system or
PRODUCED BY SPECIAL CAUSES.
NOTHING THAT IS NOT WHOLESOME, GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element; no fiery excitant but is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants
The weak stomach is rapidly invigorated and the appetite restored by this Tonic and hence it works wonders in cases of Dyspepsia and in less confirmed forms of Indigestion Acting as a gentle and painless aperient as well as upon the liver it also invariably relieves the Constipation superinduced by irregular action of the digestive and excretive organs.
Persons of feeble habit liable to Nervous Attacks Lowness of Spirits and Fits of Languor find prompt and permanent relief from the Bitters The testimony on this point is conclusive and from both sexes
As a Genuine Tonic HOSTETTER S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated In cases of Constitutional Weakness Premature Decay and Debility and Decrepitude arising from old age it exercises the electric influence ... In the convalescent stages of all diseases it operates as a delightful invigorant When the powers of nature are relaxed it operates to re-enforce and re-establish them
Last but not least it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachics of the day

[illegible] with Chase [illegible] Kentucky [illegible]

[illegible]

I then went on to Washington to interview with Chase

The Chief Justis received me corjelly When he found I wuz from Kentucky he remarked that he was glad that I came when he wuz off the bench, ez he would hev the hi-loty to hev adjourned court to hev the pleasure uv an interview and he sed he liked to interview with publie bizuis

Now, sed he, I am ready to give yoo anusers to such questions ez yoo may desire. Yoo will find paper and pencil on the table to put down my ansers or if yoo prefer it I will hev a short hand reporter in the presence ?

I declined the short hand reporter and proceeded

The Democrisy uv Kentucky hev long admired yoor gigantic abilities and the sterlin strate forard simplicity of yoor charecter They wood hev bin glad to hev testified at any time ther appreciashen uv yoo, but there wuz between yoo and them some slite differences uv opinion upon matters uv public policy which prevented it But they alluz loved yoo and they rejoice that ther is a prospect now that these differences may be smoothed down so that yoo may rush into the embraces uv Kentucky May I ask yoo to give me yoor views upon the question uv Afrikin slavery?

Willinly, willinly and bear in mind that I shal speek with the utmost frankness and plainness Slavery, my dear sir I consider in the abstract, an evil, tho perhaps it wuz in its practical workins, an unmixed good There is no yoose, that I kin see, in discussin it Its cleerly a dead issue, and my motto hez alluz bin —let the dead bury the dead Pass on to the next query

'Wat is yoor opinion uv withdrawin the troops from the Southern States ?

'The constooshen knows the South ez the North. The citizens uv the Southern States now that crooel and devastatin war is over kin find ample protecshen under the constitushen and by the operashun uv the laws Heven t yoo justices uv the peace, and ain't they sworn to vindicate the laws ? To them let the people uv the South confidently appeal Why keep anything there to remind an already irritated people uv a dead ishoo

'Wat is yoor opinyun uv nigger suffrage ?

"I object mildly but firmly to the yoose uv the term 'nigger' There is no sich a word Webster puts the word nigger among the vulgarism uv wich this age is unfortunately prolific It is doubtless a corruption of the word 'negro, with word is yoosed to kiver the Afrikin race I wave my objecshun to the word, however Ez regards extendin the suffrage to our Afrikin citizens of uv Amerikin descent, I wood say that it is a question wich requires the heftiest statesmanship to deal with. It mite be denied them altogether on the skore of unfitness, or it mite be given to all on the skore uv the ekality onto wich our guvernment is built, or it mite be given to some and withheld from others, or it mite be left to the States Ez an original States-rites man, and konsekently in perfect harmony with the Democrisy all my life, ceptin in sum triflin questions which are fortunately settled I kan't say that I have cleerly made up my mind on this question. I incline, however, to the bleef that it ain't worth while to discuss it. It seems to me that this question tho it wuz wunst vital, is now cleerly a dead ishoo."

"Wat is yoor views on the question uv general amnesty?"

"Cleerly that the war settled all questions this inclooded What wuz the coz uv dispoot between the two seckshuns ? A difference uv opinyun. Is the war over and done ? It is. It cood not hev bin ended until the difference uv opinyoon wuz settled ? Certainly not. Then why continyoo the acerbity engendered by a difference uv opinyon when that difference is reconciled ? Let the konkerer and the konkered, or rather the stronger and the weaker party meet on a common level and go to church arm in arm, ez I did with Henry A. Wise uv Virginy, only the last Sunday but one "The amnesty question I consider after givin the subjek matoor considerashun, a dead ishoo "

"May I ask yoor views on the (to us) all impotent question uv payin the bonds with greenbacks ?"

"Certainly I regret however, that I am onable to give yoo ez full and explicit an anser to this query ez to the others The fact is, my deer sir, I hev never paid any attenshun watever to the subjeck uv finance, and I am not competent to give a opinion thereupon I pledge myself however, to study the intrikit question diligently, so that in case I am nominated and elected, I kin recommend a policy that will be entirely satisfactory to the people I shell hev to assertaine the different kind of bonds now held agin the Government, the dates of their ishoos, and the stipulashens ez to payin uv em From my present standpoint, and with my limited knowledge uv the subjeck, I am inclined to hold to the opinion that this question tho onst uv importance, is now actelly a dead ishoo."

We konverst some time upon other topics and I must say that I wuz charmed with the strateforerd honesty uv his replies. He assured me that he wuz a Democrat and alluz hed bin. He hed ben estranged from the party on some minor questions which hed bin happily settled, and upon lookin the subjeck all over, he coodent find one single difference atween em All the questions wich divided em wuz dead ishoos and he cood shake hands corjelly with em. He wuz not a partisan, in proof uv wich he cited me to his roolins on the impeachment trial

While he hed allus ben a Democrat and cherished the principles uv the party as the especial apple uv his eye, he hed not, it is troo, allus acted with it His first vote wuz agin Jackson, his second and third for Harrison He organized the Liberal party movement, and voted in 1848 agin Cass He also wuz elected to the Senit by the Free Soilers and opposed Douglas Kansas-Nebraska skeme, and in 1855 wuz elected Governor of Ohio by the party which hez allus ben opposed to the Democrisy He confessed that he originated Greenbax, wuz a Nashnel bank and tariff man, and hed opposed the fugitive slave law and secession, but what uv these ? They were mere pints uv policy in their day, and are now to say the least ded ishoos ! What we want is live ishoos with the Presidency in rite hands that the Post offices may also be properly filled This he thot wuz now the grate question afore the Amerikin people

He inquired very affeksnately after the helth uv my wife an children and also ez to the crop prospeck in Kentucky and intimated that ef elected he shood hold it to be his bounden dooty to seleck for the various subordenit posishens in the government men tried and true He bleeved pertikelerly that the salaries uv the Postmasters in the smaller places wuz ridikulously small, and he shood to must recommend them to be increased

I partid with him entirely satisfied with his Democrisy On my return, I narrated the conversashen to the Democrisy uv the Corners, who agreed with me that it wuz entirely satisfactory Jo Bigler tho remarkt that ef Democrisy shood marry Abholishnism on the Forth uv Jooly and give birth to such a monstrosity ez Chase that it wood be tried to find to be a ded ishoo but we never pay eny attenshun to him So I desist wuz the citizens uv the Corners at the that that all the questions wich hed ben troublin us ever so long were ded that they to wunst hung three niggers to the trees, run off two Northeners, and recsolved that they never wood pay a cent uv a debt inkurred in a attempt to subjugate em

We are solid for Chase at the Corners

INSTITUTE.

*** *CONSULTATION, IN ALL CASES, FREE*

*** *CURES GUARANTEED, OR NO PAY REQUIRED*

*** *IN ALL CASES WHERE CONFIDENCE IS REQUIRED THE UTMOST SECRESY MAINTAINED*

The above rules, established by Dr. J. C. Young in 1850, and which have done so much to secure the reputation of this Institute, are still adhered to, affording those in need of medical aid, the certainty of cure and the utmost confidence.

There is nothing of so great importance to the sick as to know where to find a physician whose skill and humanity give assurance of proper and delicate treatment. The Doctor would respectfully call the attention of those of both sexes who are suffering or in trouble to the invariable success that has marked the career of the Institute in the seventeen years of its existence.

It is unnecessary in this connection to enumerate all the complaints treated at the Institute, but the Doctor feels it his duty to call especial attention to that terrible scourge,

SEMINAL WEAKNESS,

That is sapping with its insidiousness the very life of its victims; in the treatment and cure of which the Institute has earned so enviable a reputation.

READ! READ

I am aware that by dwelling upon so vain [illegible] jects as the decay of manly vigor through the loss of the vital principle of life, the ignorant may [illegible] tive, but the desire to point out to those who [illegible] guish and decay, the true cause of their [illegible] great an incentive to be forced into silence. [illegible] tended the terrible disease of Seminal Weakness [illegible] one but the practical specialist who devotes his [illegible] treatment can tell, but its presence can be [illegible] the most inexperienced by noting the following [illegible] toms Weakness of the back and [illegible] feelings, loss of muscular power, nervousness [illegible] cold feet [illegible] of consumption short breath, flushings of the [illegible] sion to society; confusion of the mind, loss of [illegible] nightly [illegible] colorless; slight [illegible] least excitement; trembling; palpitation of the [illegible] regular [illegible] variable temper, etc.

YOUNG MAN, if you experience any of the [illegible] symptoms enumerated above, [illegible] present is the golden moment in which you may secure health and happiness You may feel [illegible] you have ever practiced the vice of self-[illegible] ELIGHTEST DEGREE, you have the seeds of [illegible] system and their undermining influence will sooner or later dash the fair edifice of your [illegible] ground leaving you a helpless, object [illegible] that declares itself at once [illegible] out danger; for while the patient is [illegible] affection of the Heart, Lungs, Brain, or [illegible] tions, he sinks into a general [illegible] to the list of the victims of the terrible Weakness

See in the best form and [illegible] victim of the [illegible] destructive complaint in the hollow cheek and [illegible]

Drowsiness is one of the premonitory [illegible] first it is easily shaken off, but it grows even [illegible] great disinclination to pursue his regular [illegible] mind becomes apprehensive, and restless [illegible] days of depression

It is the nature of the complaint to [illegible] changes that leave the poor victim but little hope of recovery In a single instant it may wither your fond hopes and blast your honest aspirations.

Marriage is sought by a natural impulse and [illegible] lief This is an error of the first magnitude, for the system unprepared for the exhaustion of the [illegible] suddenly fails, and he finds himself in a deplorable condition from which there is but the slightest hope of [illegible] Or if the marriage should result in offspring, [illegible] are puny distorted, decrepid, and degenerate. This is [illegible] ble to both sexes, whether married or single, and in all times of life

Do not delay if you feel any of the symptoms of this terrible complaint, or if your acts have been such as to lead to them but by instant application secure to yourself the only hope of health and happiness. The Doctor uses no mercury or other deleterious drugs—cures, at [illegible] time, always guaranteed, and full and proper vigor restored

The afflicted are assured of every confidence

PERSONS AFFLICTED WITH VENEREAL.

During the seventeen years since the establishment of the Institute the [illegible] ber of cases of V[illegible] that have been treated show a record [illegible] by any [illegible] in the world and the success that has invariably marked the course of treatment,

Without Mercury or other Deleterious Drugs,

Shows conclusively the use of them to be not only uncalled for, but actually dangerous, for it is a [illegible] established medical principle that those [illegible] by entering the blood, ruin the constitution and [illegible] life

The Doctor effects a cure in recent cases, in a few days, and finds no difficulty in curing those of long [illegible] without submitting the patient to such treatment as will draw upon him the slightest suspicion or oblige him to neglect his business whether in-doors or without; [illegible] diet need not be changed Cures always guaranteed, no pay required

IMPORTANT TO FEMALES.

When a female is in trouble or afflicted with [illegible] and requires medical or surgical assistance the inquiry should be Where is there a physician competent to [illegible] relief and whose respectable standing in society will recommend him to the confidence of the community? The Doctor understanding how imperatively [illegible] these requirements are, feels called upon to [illegible] and by calling the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases [illegible] years and is fully qualified to administer in all cases, both medically and surgically not in a superficial [illegible] but in as thorough a manner as years of study and practice in the hospitals and private families—can make, to save them from the hands of the unqualified unscrupulous or designing Therefore families can rely upon him as upon a father All in affliction can find in him one who can feel and sympathise with and befriend them in trouble and in whose secrecy the utmost confidence can be placed consultation by letter or otherwise free Cures guaranteed in all weakness and trouble incidental to the sex Private apartments are provided when desired, whereby can be had all the advantages of uninterrupted attention of the Doctor and the most skillful and and faithful nurses

TO CORRESPONDENTS —Persons either male or female, residing at a distance, are often deterred from consulting the Doctor because they cannot spare the time nor incur the expense of a visit to the city To such he would say that a plain statement of the symptoms and information bearing upon the complaint will enable him to prescribe for them so that they can be cured at home None need be uneasy for a clear case of [illegible] what the [illegible] complaint [illegible] will be [illegible] treated with [illegible] silence and otherwise returned or destroyed.
